AthenaNet Biweekly Release Notes August 22, 2025

Note: To view full release note, click on subtitles. Must be logged into Athena.

For Technical Teams

[athenaTelehealth — Configure Network Firewall to Allow New Ports](#)

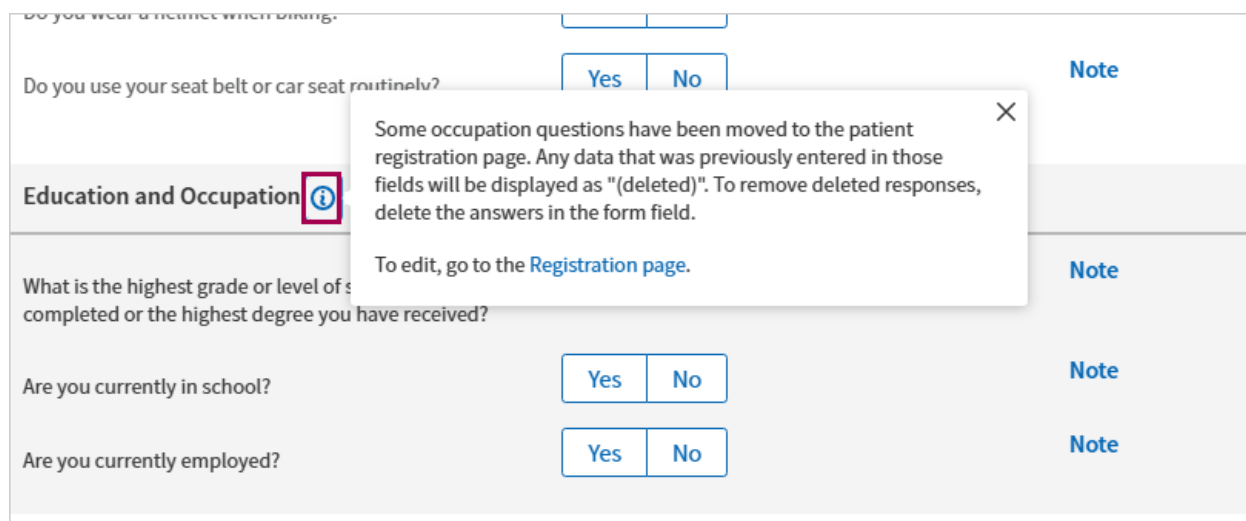

To support an upcoming 8/21/2025 athenaTelehealth update, all athenaTelehealth customers with a network firewall must configure the firewall to allow the following new ports:

- UDP ports 8801-8804
- TCP ports 8801 and 8802

For Clinical Teams

[Link to Full Registration from Social History Education and Occupation Section](#)

As of the Summer 2025 Release, Occupation and Employer fields have been removed from the Social History section and are now accessible only through Full Registration. An info icon in Social History links to Full Registration, which opens in a new tab to maintain workflow.

[Patient Forms and Screeners on Demand-Updated Success Message](#)

After sending a form and/or screener during an encounter, the new success copy is as follows:

"The [x] forms you selected have been sent to [patient phone number or email]. The patient will be able to access the link for the next three (3) hours or until the encounter is closed, whichever happens first." **For Billing & Administrative Teams**

Use Automated Insurance Selection When Adding New Policy from Insurance Card Image

Now, athenaOne further automates the process to automatically select the best match insurance policy for you to review.

Tip: Click the image to see an expanded view.

If no policies were suggested, or if you decide not to use the automatically selected policy, you can always use the **Policy Lookup** page to manually search for an insurance policy.
