Slide 27

LH0 can you please add a slide in here on instructions for snoozing and reminding staff to keep offering the flu vax. I know there aren't a lot of clinical people but even if just one, its a good reminder

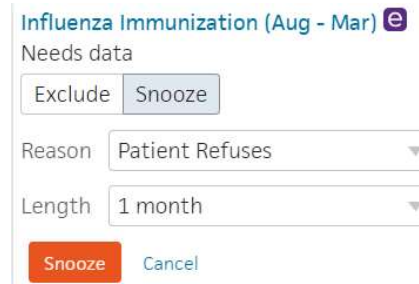

Lisa Hoffmann, 2023-11-14T20:33:18.695

How to snooze the flu shot reminder

- If a patient **declines the shot** when you ask, you (not just medical!) should snooze the reminder in the Quality tab
- Hover over the measure in the Quality tab and click the X in the top-right corner

- Click “Snooze” and enter the reason (e.g. “Patient Refused”); select a time frame between 1 and 4 weeks
