This move has multiple benefits, it stretches the hamstrings, lower back, and calf muscles. Push your chair away from your desk and put your leg up on the desk. Flex your foot and lean forward (keep your back straight). Hold for 10 seconds. Repeat with the other leg.

13. NECK MUSCLES

Put your head in your hands, the way most desk dwellers do when they are tired or have just had a difficult conversation. Press your palms into your forehead and try to push your head backwards. Resist this motion. Then switch the hands to the back of the head and try to push your head backwards. Repeat 5 times.

14. CORE STRENGTHENER

If your chair swivels then you can use that to help strengthen your core muscles. Sit straight in your chair with your feet hovering above the floor and hold onto the edge of your desk with your fingers and thumb. With your core muscles engaged, use them (rather than your arms) to swivel your chair from side to side.

15. ANKLE ROLL

Keep your ankles loose by rotating them both clockwise and anti-clockwise, 3 times in both directions. This is great for preventing pins and needles.
