2018
Annual
Report

Homelessness affects people we all know.

But most people experiencing homelessness are out of sight.

91% 
of clients slept somewhere other than the street

“Homelessness is bigger than the people we see on the street. It’s everywhere and could affect anyone.”

“Housing is the prescription that fixes most things.”

Together, we’re* on the ground, local and **making a difference.**

You help people move from crisis to **stability**.

“Five years ago I was in prison. Three years ago I was living in my boyfriend’s car. Today I’m in my own house, with a job and relationships with my family. I’m

in a much better space
than I’ve been in
my whole life.”

“If I hadn’t gone to the clinic, I never would have found out that I had cancer. Being able to see them every week saved my life. I’m learning to love myself—and that I have something to live for.”
